

Owner summary

Site: <https://books.toscrape.com> · Prepared for: Sample report

Tested Oct 14, 2026, 10:44 PM CT · 10 page(s) · desktop 1366×768 + mobile 390×844 (Chromium) · 195 links checked

Needs fixes

Launchable, but fix the issues below soon — visitors will notice some of them.

0

High

1

Medium

1

Low

0

Check manually

Top 2 things to fix

1. **Medium** Part of the site (a script, style or image) is loaded insecurely and browsers block it, which can break features. (10 pages · ticket PD-01)
2. **Low** Search results will show random page text instead of a written summary. (10 pages · ticket PD-02)

What visitors should be able to do

“Browse book categories and open a book's detail page”

We confirmed the pages, links and files behind this load and display correctly. Interactive steps — form submissions, checkout/payments, logins, bookings and email delivery — were **not tested**; please try them yourself before launch.

Your developer section with copy-ready tickets starts on the next page. One retest is included after fixes.

Developer section

Each item below is a copy-ready ticket. Issues repeated across pages or screen sizes are merged into one ticket listing every affected page.

PD-01 · **Medium** Insecure (http://) resource blocked:

<http://ajax.googleapis.com/ajax/libs/jquery/1.9.1/jquery.min.js>

Category	Missing content · desktop + mobile
Page(s)	10 pages: https://books.toscrape.com/ , https://books.toscrape.com/index.html , https://books.toscrape.com/catalogue/category/books_1/index.html , https://books.toscrape.com/catalogue/category/books/travel_2/index.html , https://books.toscrape.com/catalogue/category/books/mystery_3/index.html ... (+5 more)
Steps	1. Open the page below in Chrome. 2. Open DevTools → Network (and Console), reload. 3. Look for http://ajax.googleapis.com/ajax/libs/jquery/1.9.1/jquery.min.js
Expected	All page resources load successfully.
Actual	http://ajax.googleapis.com/ajax/libs/jquery/1.9.1/jquery.min.js → mixed-content (page is HTTPS, resource is HTTP).
Fix	Change the URL to https:// (or a protocol-relative/self-hosted copy) so browsers allow it.

PD-02 · **Low** Missing or empty meta description

Category	SEO basics
Page(s)	10 pages: https://books.toscrape.com/ , https://books.toscrape.com/index.html , https://books.toscrape.com/catalogue/category/books_1/index.html , https://books.toscrape.com/catalogue/category/books/travel_2/index.html , https://books.toscrape.com/catalogue/category/books/mystery_3/index.html ... (+5 more)
Steps	1. View source of the page below. 2. Search for name="description".
Expected	A 120–160 character description.
Actual	Meta description missing or empty.
Fix	Add <code><meta name="description" content="..."></code> summarising each page.

Scope & limitations

- Up to 10 public pages reachable by links from the submitted URL on the same domain, tested in headless Chromium from a US datacenter. Timings vary by network and location.
- **Not tested:** pages behind login, form submissions, payments/checkout, email delivery, third-party embeds' internal behavior, Safari/Firefox-specific rendering, real-device quirks.
- Not a security audit or accessibility/legal compliance certification. No automated check finds every issue. Repairs and hosting are not included.
- One retest is included: after fixing, request a retest and this exact check is re-run.

Generated by Proofday engine v2.
